PROFILE

Dynamic Frontend Engineer and Educator with 3+ years of experience blending modern web development (React/Next.js/TS) with cutting-edge AI integration and Prompt Engineering. Founded **Aidevix.uz**, pioneering AI literacy and advanced LLM workflows across Central Asia. Proven track record of mentoring 200+ engineers, leading engineering teams, and shipping high-performance applications serving 50,000+ active users.

CORE EXPERTISE

Frontend Architecture: React.js, Next.js (SSR/ISR), TypeScript, JavaScript (ES6+), Redux Toolkit, GraphQL, REST APIs, Tailwind CSS.

AI & Prompt Engineering: Advanced Patterns (Chain-of-Thought, ReAct, Few-Shot), LLM APIs (GPT, Claude, Gemini), RAG, JSON Mode, Function Calling.

AI Tooling & Engineering: Cursor, GitHub Copilot, Claude Code, v0, Bolt, Vector DBs (Pinecone, Chroma), CI/CD, Git.

Methodology & Leadership: Agile/Scrum, Technical Curriculum Design, Code Review, Public Speaking, DevRel.

PROFESSIONAL EXPERIENCE

Head of IT / Project Manager · ***Turkish Baby & Adamari*** — **Sep 2026 – Present**

- Head the IT department as Project Manager, owning the technology roadmap, priorities and delivery across both companies.
- Plan, coordinate and ship IT projects alongside Otabek Fathullayev and Abdulaziz Obidov.

Team Lead / Senior Frontend Engineer · ***Alloplay*** — **Dec 2025 – Present**

- Lead the frontend engineering team for a high-traffic, Netflix-style video streaming platform with DRM-protected video (Shaka Player, Widevine).
- Architected scalable Next.js + TypeScript application structure, optimizing SSR performance, image CDNs, and Core Web Vitals.
- Introduced AI-assisted development practices (Cursor, Copilot), boosting team sprint velocity by an estimated 30%.

Founder & AI Curriculum Lead · ***Aidevix.uz*** — **Aug 2024 – Present**

- Founded the premier AI EdTech platform in Central Asia, defining product vision, content strategy, and localized LLM resources.
- Designed comprehensive learning tracks for Prompt Engineering, production-ready LLM workflows, and automated AI agents.
- Authored production-grade prompt patterns (Chain-of-Thought, ReAct) for automated content generation and internal QA pipelines.

Senior Frontend Mentor & Curriculum Lead · ***Mars IT School*** — **May 2023 – Present**

- Mentored and successfully graduated 200+ frontend engineers across multiple intensive and high-performing cohorts — awarded Best Teacher (Q3 2024).
- Overhauled the institutional curriculum to integrate AI-first development workflows, preparing students for modern tech roles.
- Delivered 100+ technical workshops, live coding sessions, and architecture reviews for over 500+ cumulative learners.

Frontend Developer · ***Uysavdo*** — **Jan 2024 – Dec 2024**

- Shipped core features for Uzbekistan's leading real-estate platform, successfully serving 50,000+ active users.
- Boosted Lighthouse performance scores (SEO, Accessibility, Speed) by rewriting legacy code into a modern, reusable UI library.

Frontend Mentor & Instructor · ***Farobiy Academy / Najot Ta'lim*** — **Sep 2022 – May 2023**

- Began journey as a peer mentor and fast-tracked to assistant instructor due to strong engineering foundations.
- Conducted 1-on-1 coaching, code reviews, and taught foundational web technologies (HTML5, CSS3, JavaScript, React).

KEY PROJECTS

- **Aidevix.uz** – Gamified AI learning platform with automated AI-powered content pipelines and production-ready LLM integration.
- **Alloplay** – High-performance streaming platform utilizing advanced caching, DRM protection, and optimized media delivery.
- **Uysavdo** – Scalable real-estate marketplace focused on exceptional SEO, semantic HTML, and fluid user experience.

EDUCATION & MISC

Najot Ta'lim: Full-stack Frontend Development Tracks (Completed 2023).

Portfolio: sunnatbekyusupov.uz — personal site, projects & contact.

Community: Active tech content creator on LinkedIn/Telegram, providing free mentorship to junior engineers.

Languages: Uzbek (Native), English (Upper-Intermediate / B2), Russian (Upper-Intermediate / B2).
